

Section 30. **Requirements for the importation of Poultry.**

(a) A Certificate of Veterinary Health Inspection is required on all Poultry entering Wyoming.

(i) The following exception to this requirement exists:

(A) Poultry that are five (5) months of age and younger may be imported on a National Poultry Improvement Plan Form VS 9-3.

(b) Imported Poultry that shall be used for egg production and meat production, shall have a negative test result for the following diseases within thirty (30) days prior to import:

(i) Pullorum - Typhoid;

(ii) *Mycoplasma gallisepticum*;

(iii) *Mycoplasma synoviae*, and

(iv) *Salmonella enteritidis*.

(A) The following exception to this requirement exists:

(I) Poultry that are five (5) months of age and younger may enter that state without testing if they originate from Flocks officially classified as negative for the listed diseases;

(1.) Pullorum - Typhoid;

(2.) *Mycoplasma gallisepticum*;

(3.) *Mycoplasma synoviae*; and

(4.) *Salmonella enteritidis*.

Effective 3/31/07

(c) Each container of Poultry imported into the state shall be labeled with the following information:

- (i) The name and address of the shipper;
- (ii) The number of Poultry in the container;
- (iii) The breed of the Poultry in the container;
- (iv) The sex of the Poultry in the container;
- (v) The age and hatch date of the Poultry in the container;
- (vi) The name of the hatchery or person producing the Poultry in the container, and
- (vii) When applicable, the Pullorum classification.
