WYOMING LIVESTOCK BOARD ORDER

In the matter of:

Trichomoniasis Testing of Non
Virgin Bulls

)
)
)

Order No. 2009-01

August 21, 2009, the Wyoming Livestock Board voted unanimously in favor of a board order requiring Trichomoniasis testing **in addition to** the requirements in the Chapter 15 Trichomoniasis Rules.

This Order is issued on this 1st day of September, 2009 for the purpose of minimizing the spread of Trichomoniasis. It is hereby ordered that:

“One Trichomoniasis test is required on all non-virgin bulls that have had fence line or commingling contact with a Trichomoniasis quarantined herd during the 2009 breeding season. The test must be completed prior to April 1, 2010. Bulls sold for slaughter only are exempt from this requirement.”

This Order is **in addition to** Trichomoniasis testing requirements found in the Wyoming Livestock Board Trichomoniasis (Chapter 15) Rules as extenuating circumstances have been found.

These requirements are being implemented to protect the health and economic viability of Wyoming livestock.

This Order is issued pursuant to Wyoming State Statute §11-18-103. The State Veterinarian is directed to carry out this Order pursuant to §11-19-101. This Order remains in effect until further notice.

Dated this 1st Day of September, 2009
