

CHAPTER 8

LIVESTOCK BOARD IMPORT RULES

Section 1. Authority to create import rules.

(a) Pursuant to the authority vested in the Wyoming Livestock Board by virtue of W.S. §11-18-103(a)(v) and §11-32-102, the following rules are hereby promulgated.

Section 2. Purpose of import rules.

(a) The purpose of these rules is to protect the health of Wyoming's animals, livestock industry, and the general public by establishing procedures for the import of Animals, ~~and when necessary Quarantine of Animals~~ and Biologic Agents into the State of Wyoming.

Section 3. Definitions used in rules.

(a) For the purposes of implementing these rules, the following definitions exist:

(i) "Accredited Veterinarian" means an individual who is licensed to practice veterinary medicine and is accredited by the USDA/APHIS/VS in the state where he or she practices or is otherwise employed.

(ii) "Adjacent State Border Property Movement Permit" means a permit issued by the Wyoming Livestock Board, for movement of Animals across the state line waiving certain Animal health import requirements, upon the applicant satisfactorily demonstrating that he or she owns land or has leased land for at least two (2) or more consecutive years that is contiguous with land he or she owns or has leased for two (2) or more consecutive years in an adjacent state.

(iii) "Animal" means any living vertebrate that is not a human being, excluding those animals covered in W.S 23-3-301 (a).

(iv) "Approved Feedlot" means a feedlot permitted by the Board which feeds certain Animals based upon the operator's compliance with the provisions of the permit to include compliance with all Wyoming Livestock Board Rules. The Board shall maintain a current list of Approved Feedlots. The list of Approved Feedlots can be obtained from the offices of the Board.

(v) (iv) "Approved Livestock Market" means a market that is licensed by the Board and the USDA/APHIS/VS.

~~(v) "Approved Livestock Market Veterinarian" means an Accredited Veterinarian employed by an Approved Livestock Market.~~

(vi) "Aviary and Cage Birds" means captive-reared birds that are adapted to live and breed in an aviary or cage.

Effective 3/31/07

(vii) "Biologic Agent" means any biologic product used for agricultural or veterinary purposes and includes semen and embryos. This does not include serum, blood, body fluids, tissues, animal carcasses or reagents imported for diagnostic purposes.

(viii) "Bison" means a domestic ruminant mammal of the genus *Bison*.

(ix) "Black-faced Sheep" means any purebred Suffolk, Hampshire, Shropshire, or cross thereof; any nonpurebred Sheep known to have Suffolk, Hampshire, or Shropshire ancestors; and any nonpurebred Sheep of unknown ancestry with a black face except for haired Sheep. Haired Sheep known to have Suffolk, Hampshire, or Shropshire ancestors are considered Black-faced Sheep.

(x) (ix) "Board" means the Wyoming Livestock Board, state agency 051, whose address is 2020 Carey Avenue 4th Floor 1934 Wyo Drive, Cheyenne, WY 82002-0051, (307) 777-7515.

~~(x) "Bovine" means a ruminant mammal of the genus *Bos* and crossbred Bovine/Hybrid Animals.~~

~~(xi) "Brand Inspection Form" means an official form issued by the Board used to transfer title of Bovine, Equine and Ovine or an official form issued by an agency in the state of origin that is responsible for Animal identification, listing all of the identification marks of a specific Animal.~~

~~(xii) "*Brucella ovis*" means a bacteria that causes a disease of Ovine characterized by testicular swelling, inflammation in the epididymis and impaired fertility.~~

(xi) (xiii) "Brucellosis" means any of the species specific disease conditions caused by bacteria in the genus *Brucella*, including infectious disease of Animals and humans caused by a bacteria, *Brucella abortus*, *Brucella canis*, *Brucella mellitensis*, *Brucella ovis*, or *Brucella suis*.

(xii) "Brucellosis Designated Surveillance Area" means the geographic area designated by the Board in its Chapter 2 Rules and/or by Board order where bovine Brucellosis is endemic in wildlife.

~~(xiv) "Brucellosis Test Eligible" means all sexually intact Bison and Bovine eighteen (18) months of age and over (as evidenced by the loss of the first pair of temporary incisor teeth). (Presence of the first pair of fully erupted permanent incisor teeth is evidence that the Bison or Bovine has reached twenty four (24) months of age.) All Bison and Bovine that are Parturient or Post Parturient are test eligible regardless of age.~~

~~(xv) "Brucellosis UMR" means the Brucellosis Eradication Uniform Methods and Rules as issued and amended as of October 1, 2003 by the USDA/APHIS/VS. These Rules do not include any later amendments of the UMR past October 1, 2003. Copies of the UMR are available to the public at the office of the Board.~~

~~(xvi) "Brucellosis Vaccination Eligible" means sexually intact female Bison and/or Bovine between the ages of four (4) months and twelve (12) months of age.~~

Effective 3/31/07

(xiii) (xvii) "Camelidae **Camel Family Species**" means a ruminant mammal that includes alpacas, camels, guanacos, llamas and vicunas.

~~(xviii) "Canine" means an omnivorous mammal of the genus *Canis*. (xix) "Caprine" means a ruminant mammal of the genus *Capra*.~~

(xiv) "Cat" means a domestic carnivorous mammal of the genus *Felis*.

(xv) "Cattle" means any ruminant mammal of the genus *Bos*, including crossbred Cattle/Hybrid Animals and Yaks.

~~(xvi) (xx) "Certificate of Veterinary Health Inspection" means an official form documenting the health status of an Animal, after being visually inspected by an Accredited Veterinarian, issued at the state of origin. A Certificate of Veterinary Health Inspection is valid for thirty (30) days after issuance.~~

(xvii) (xxi) "Certified Brucellosis-Free Herd" means a herd of Bison or Bovine **Cattle** that has qualified for and has been issued a **Certified Brucellosis-Free Herd** certificate signed by both the appropriate state of origin's Animal health official and by the USDA/APHIS/AVIC signifying that the herd is free of Brucellosis.

~~(xxii) "Certified Spay Technician" means an individual who is certified by the state in which he or she resides to spay female Bison or Bovine.~~

~~(xxiii) "Certified Trichomoniasis Negative" means any sexually intact male Bovine which has tested negative to one (1) Official Trichomoniasis Test and two (2) Official Trichomoniasis Retests, has not been used for natural breeding purposes since the official Trichomoniasis Test, and is accompanied by a Certificate of Veterinary Health Inspection from the Certified Veterinarian who conducted the test.~~

~~(xxiv) "Certified Veterinarian" means an Accredited Veterinarian who has been certified to perform Trichomoniasis testing by the Wyoming State Veterinarian.~~

~~(xxv) "Chapter 2 Rules" means official rules promulgated by the Board entitled Vaccination Against and Surveillance for Brucellosis on file with the Secretary of State's Office in Cheyenne, Wyoming.~~

~~(xxvi) "Chapter 15 Rules" means official rules promulgated by the Board entitled Trichomoniasis Rules on file with the Secretary of State's Office in Cheyenne, Wyoming.~~

~~(xxvii) "Commingling" means Animals having direct physical contact. Commingling does not include incidental contact lasting less than 24 hours between Animals off the Premise.~~

(xviii) "Certified Scrapie Free Flock" means a flock of Sheep or Goats that have been certified by the state of origin Animal health agency and USDA/APHIS/VS to be free of Scrapie.

(xix) "Dairy Cattle" means all Cattle of the dairy breeds, and all Cattle used for milk production.

(xx) (xxviii) "Direct Movement" means movement in which the Animals are not ~~neither~~ unloaded en route to their final destination and not ~~nor~~ ~~Commingled~~ commingled with another producer's Animals during the movement.

(xxi) "Dog" means a domestic omnivorous mammal of the genus *Canis*.

~~(xxvix) "Equine" means a herbivorous mammal of the genus *Equus*.~~

(xxii) (xxx) "Equine Infectious Anemia" means an incurable viral disease of Horses ~~Equine~~-causing anemia.

(xxiii) "Farm or Ranch of Origin" means the farm or ranch where the Animal resided immediately prior to entering Wyoming.

~~(xxxix) "Feline" means a carnivorous mammal of the genus *Felis*.~~

(xxiv) (xxxii) "Feral Animal" means an individual of a domesticated Animal species, that has become wild is not under the control of nor cared for by a person and which has returned to a wild or semi-wild state. A feral animal may or may not be owned by a person.

(xxv) "Ferret" means a domestic carnivorous mammal of the genus *Mustela*.

(xxvi) (xxxiii) "Flock" means all ~~Caprine~~ Goats and/or ~~Ovine~~ Sheep maintained together on a single Premise or maintained together under common ownership on two or more Premises with interchange between the Premises. ~~Caprine~~ Goats or ~~Ovine~~ Sheep maintained temporarily on a Premise for activities such as shows and sales or while in marketing channels are not a Flock. More than one Flock may be maintained on a single Premise provided ~~Commingling~~ commingling does not occur ~~in accordance with the Serapie UMR.~~

(xxvii) (xxxiv) "Foot Rot" means a chronic, progressive disease caused by a mixed infection of bacteria causing lameness and severe tissue destruction.

(xxviii) "Goat" means a ruminant mammal of the genus *Capra*.

(xxix) (xxxv) "Hatching Egg" means a hard-shelled reproductive body produced by Poultry or Ratites.

~~(xxxvi) "High Risk" means any Caprine or Ovine determined by epidemiologic investigation to face an increased probability of developing Serapie as described in the Serapie UMR.~~

~~(xxxvii) "Hybrid Animal" means an Animal produced by crossing species or subspecies of Animals.~~

(xxx) "Herd of Origin" means the herd into which the Animal was born.

(xxxi) "Horses" means any herbivorous mammal of the genus *Equus*, including donkeys, horses, mules, and zebras.

(xxxii) ~~(xxxviii)~~ "Immediate Slaughter" means the slaughter of an Animal within three (3) working days at a Recognized Slaughter Establishment. The Animals cannot be offloaded at any point other than the Recognized Slaughter Establishment.

(xxxiii) ~~(xxxix)~~ "Import Permit" means a number issued by the Board within ten (10) days ~~in advance of any Bison, Bovine, Ovine, Porcine or Yaks~~ prior to any Animal requiring such a permit being imported. Import numbers shall be obtained by calling (307) 777-7515, (307) 777-7517 or (307) 777-3660. The ~~Board~~ State Veterinarian may authorize an Import Permit prefix to out of state livestock markets for the creation of their own Import Permits ~~with written approval of the Wyoming State Veterinarian~~.

(xxxiv) ~~(xl)~~ "Interstate Equine Health Movement Agreement Permit" means a written agreement between the Wyoming State Veterinarian and an Equine owner that allows for the movement of Equine between Wyoming and an adjacent state. The agreement allows Wyoming origin Equine to return to Wyoming without a current Certificate of Veterinary Health Inspection after having spent fifteen (15) days or less in the adjacent state.

(xxxv) ~~(xli)~~ "Interstate Livestock Health Movement Agreement Permit" means a written ~~Agreement~~ permit that allows for the movement of Bison, ~~Bovine~~ Cattle, Equine Sheep, Goats, and Horses used for herd management purposes, and ~~Ovine~~ between Wyoming and an adjacent state. This ~~Agreement~~ permit shall be approved by state Animal health officials in the state of origin and state of destination prior to movement.

(xxxvi) ~~(xlii)~~ "Johne's Disease" means a chronic, debilitating disease of ruminants that is caused by a the bacteria, *Mycobacterium ~~avium~~ paratuberculosis*.

~~(xliii) "K Brand" means a 3" X 2" or larger hot iron, freeze, or bleach single-K character brand, placed on the left hip near the tail head of a female Bison or Bovine being fed in a K Lot.~~

~~(xliv) "K Lot" means a feedlot that is established by a contractual agreement (K Lot agreement) with the Board and feedlot operator that allows for the feeding of non-Brucellosis vaccinated, female Bison or Bovine in a feedlot based upon the operator's compliance with the provisions of the agreement. All Bison and Bovine shall be identified with Official Individual Identification and a K Brand upon arrival. All Bison and Bovine shall be sent to Immediate Slaughter or to an out of state destination that will accept non-vaccinates. All Brucellosis Test Eligible Bison or Bovine imported into Wyoming from a state or country with less than a Brucellosis class-free status shall test negative for Brucellosis prior to entry.~~

(xxxvii) ~~(xlv)~~ "Licensed Veterinarian" means an individual who is licensed to practice veterinary medicine in the state where he or she practices.

Effective 3/31/07

~~(xlvii) "Mustelid" means a domestic carnivorous mammal of the genus *Mustela*.~~

(xxxviii) "Mexican-Origin Cattle" means any Cattle whose Herd of Origin or Farm or Ranch of Origin is in Mexico.

~~(xlviii) "National Poultry Improvement Plan Form VS 9-3" means a form used to document interstate sales and movement of Hatching Eggs, Poultry and Ratites~~ flightless birds.

~~(xl) (xlviii) "Official Adult Vaccinate for Brucellosis" means a female Bison or Bovine Cattle that is over twelve (12) months of age when vaccinated~~ by permission of the Wyoming State Veterinarian and AVIC in conjunction with having a negative Brucellosis test within ten (10) days prior to vaccination. Verification of Official Adult Vaccination status requires evidence of the Adult Vaccination tattoo. ~~using the approved vaccination procedure outlined in the Brucellosis UMR as issued and amended as of October 2003, only after written approval is issued by the Wyoming State Veterinarian and the USDA/APHIS/AVIC. The female Bison or Bovine shall be properly identified as an adult vaccinate by Official Individual Identification, and by a vaccination tattoo or brand, and shall be reported on the appropriate certificate to the appropriate State and Federal Animal health agencies.~~

~~(xli) (xlix) "Official Calfhood Vaccinate for Brucellosis" means a female Bison or Bovine Cattle that has been inoculated between four (4) months and twelve (12) months of age~~ when vaccinated. ~~with a USDA/APHIS/VS and Board approved *Brucella* vaccine, by a State or Federal representative or an Accredited Veterinarian using the approved vaccination procedure outlined in the Brucellosis UMR as issued and amended as of October 1, 2003. The female Bison or Bovine shall be properly identified as a vaccinate by Official Individual Identification, and a vaccination tattoo, and shall have been reported on the appropriate certificate to the appropriate State and Federal Animal health agencies.~~ ~~Verification of official~~ calfhood vaccinateion status requires evidence of the vaccination shield or presence of approved USDA/APHIS/VS calfhood vaccination tag or device.

~~(xlii) (l) "Official Individual Identification" means any form of identification approved by USDA/APHIS/VS that identifies the Animal to the Flock or herd of birth or origin,~~ or by agreement between the Wyoming State Veterinarian and the state of origin's state Animal health official.

~~(li) "Official Spay Tag" means a permanent, blue metal identification ear-tag with the word "spayed" stamped or engraved into the metal, placed in the right ear, signifying that the animal has been spayed. These tags are available only to Licensed Veterinarians from manufacturers approved by the Wyoming State Veterinarian.~~

~~(lii) "Official Trichomoniasis Retest" means an Official Trichomoniasis Test conducted at least seven (7) days, but not more than twenty-one (21) days, after any previous Official Trichomoniasis Test.~~

~~(liii) "Official Trichomoniasis Test" means a test conducted on a properly~~

Effective 3/31/07

~~cultivated sample to detect the presence of the protozoa *Tritrichomonas foetus*.~~

~~(liv) "Ovine" means a ruminant mammal of the genus *Ovis*.~~

~~(lv) "Parturient" means an Animal that is visibly prepared to give birth or within two weeks of giving birth.~~

~~(lvi) "PEMMP" means a post exposure management and monitoring plan which is a written agreement signed by the owner of a Flock, any Accredited Veterinarian employed by the owner, and a State or USDA/APHIS/VS representative in which each participant agrees to undertake specified actions to reduce the risk of the occurrence of Scrapie and to monitor for the occurrence of Scrapie in the Flock for at least sixty (60) months after the last High Risk or Scrapie Positive Caprine or Ovine was removed from the Flock or after the last exposure of the Flock to a Scrapie Positive Caprine or Ovine unless the monitoring time is otherwise specified by a State or USDA/APHIS/VS representative. The Flock owner must provide the facilities and personnel needed to carry out the required elements listed in the plan.~~

~~(lvii) "Porcine" means an omnivorous mammal of the genus *Suis*.~~

~~(xliii) (lviii) "Port of Entry" means a facility operated and staffed by personnel from the Wyoming Highway Department where people importing Animals Commercial Animal carriers must stop and provide necessary documentation regarding the health status of the Animals being imported.~~

~~(lvix) "Post Parturient" means an Animal that has recently given birth.~~

~~(xliv) (lx) "Poultry" means fowl Animals commonly referred to as chickens, ducks, geese, guineas, peacocks, pigeons and turkeys.~~

~~(xlv) (lxi) "Premise" means an identifiable physical location that represents a unique and describable geographic location where ~~grazing operations exist~~ Animals are kept.~~

~~(xlvi) (lxii) "Pseudorabies" means a ~~viral~~ viral infection primarily of Porcine Swine, but occurring incidentally in most other species. ~~The disease is a USDA/APHIS/VS program disease under strict regulation.~~~~

~~(xlvii) (lxiii) "Quarantine" means an official document, issued by the Wyoming State Veterinarian or his or her authorized representative, that restricts the movement of specified Animals and prohibits their ~~Commingleing~~ commingleing, their being slaughtered, turned loose, removed, or permitted to escape, and sets forth requirements regarding their testing; or qualification for import and Quarantine release. The Animal owner or owner's agent is responsible for all liability and expenses s associated with a Quarantine requirements.~~

~~(xlviii) (lxiv) "Rabies" means an acute, rhabdoviral encephalomyelitis that can affect any mammal. ~~Once clinical signs appear, it is invariably fatal. Transmission is by introduction of virus laden saliva or nervous tissue into tissues, usually by the bite of an~~~~

Effective 3/31/07
infected Animal.

~~(ix) "Ratite" means an avian Animal that includes emus and ostriches.~~

(xlix) ~~(lxvi)~~ "Recognized Slaughter Establishment" means any slaughter establishment operating under the provisions of the Federal Meat Inspection Act, (21U.S.C. 601-695) including all amendments as of August 2006, or the Wyoming Food Safety Rule found at Chapter 1 Purpose, Variances, Definitions, Demonstration of Knowledge, and Health Status as promulgated and amended by the Wyoming Department of Agriculture as of August 2003 December 2009. This does not include any later amendments past August 2006 and August 2003 December 2009 respectively. These documents are available to the public at the office of the Board or online at http://www.fsis.usda.gov/regulations_&_policies/Federal_Meat_Inspection_Act/index.asp or <http://wyagric.state.wy.us/divisions/chs/meat-a-poultry-program>.

~~(lxvii) "Recreational Event" means events commonly referred to as exhibitions, fairs, gymkhanas, rodeos, shows and trail rides.~~

~~(lxviii) "Reportable Disease" means any disease that is on the Wyoming State Veterinarian's list of Reportable Diseases pursuant to W.S. §11-19-102 that must be reported when suspected or diagnosed.~~

(l) "Rodeo Cattle" means all Cattle previously used for, or currently used for recreational purposes, such as rodeo events, roping events, cattle cutting events, cattle penning events, gymkhanas, and steer wrestling events. This includes any Cattle that have commingled with Rodeo Cattle.

(li) ~~(lxix)~~ "Scrapie" means a nonfebrile, transmissible, insidious, degenerative disease affecting the central nervous system of ~~Ovine~~ Sheep and ~~Caprine~~ Goats and causing a spongiform encephalopathy.

~~(lxx) "Scrapie Positive" means any Caprine or Ovine that has tested positive on an official test for Scrapie.~~

(lii) "Scrapie Live Animal Test" means an ante-mortem test for Scrapie approved by USDA/APHIS and the Wyoming State Veterinarian.

~~(lxxi) "Scrapie UMR" means the Scrapie Eradication Uniform Methods and Rules as issued and amended as of June 1, 2005, which are cooperative procedures and standards adopted by USDA/APHIS/VS and participating states for controlling and eradicating Scrapie. These Rules do not include any later amendments of the UMR past June 1, 2005. Copies of the UMR are available to the public at the office of the Board.~~

(liii) "Sheep" means a ruminant mammal of the genus *Ovis*.

(liv) ~~(lxxii)~~ "Shipping Number" means a number issued by the automated attendant service after regular business hours, on weekends and holidays, the Accredited Veterinarian's state veterinary license number used outside Board business hours, in lieu of an Import Permit which is only issued during regular business hours for the import of

Effective 3/31/07

~~Bison, Bovine, Ovine, Porcine and Yaks.~~ The Accredited Veterinarian issuing the Certificate of Veterinary Health Inspection ~~receiving the~~ with a Shipping Number shall call the Board (at (307) 777-7515, (307) 777-7517 or (307) 777-3660) on the next regular business day and convert the Shipping Number into an Import Permit. ~~Shipping Numbers shall be obtained from (307) 777-7515.~~

(lv) (lxxiii) "Show Lamb Fungus," also known as ring worm, means a contagious skin disease of ~~Ovine~~ Sheep caused by a species of fungi that invades the skin and creates lesions.

(lvi) "Swine" means an omnivorous mammal of the genus *Suis*.

~~(lxxiv) "Third Eyelid Test" means the ante-mortem test for Scrapie.~~

(lvii) (lxxv) "Trichomoniasis" means a contagious venereal disease of ~~Bovine~~ Cattle, caused by a the protozoa, *Tritrichomonas foetus*, ~~and characterized by infertility, pyometra, abortion, and reproductive inefficiency.~~

(lviii) (lxxvi) "Trichomoniasis Test Eligible ~~Bovine~~ Bull" means any non-virginal, sexually intact male ~~Bovine~~ Cattle or any sexually intact male Cattle over twenty-four (24) months of age.

(lix) (lxxvii) "Tuberculosis" means a chronic, progressive disease caused by a bacteria, *Mycobacterium bovis* in ~~Bovine~~ Cattle and other species, including humans.

~~(lxxviii) "Tuberculosis UMR" means the Bovine Tuberculosis Eradication Uniform Methods and Rules as issued and amended as of January 1, 2005, by the USDA/APHIS/VS. These Rules do not include any later amendments of the UMR past January 1, 2005. Copies of the UMR are available to the public at the office of the Board.~~

(lx) (lxxvix) "USDA/APHIS/AVIC" means the United States Department of Agriculture, Animal and Plant Health Inspection Service, Area Veterinarian in Charge who is the veterinary official assigned to supervise and perform Animal health work of USDA/APHIS/VS in the state concerned.

(lxi) (lxxx) "USDA/APHIS/VS" means the United States Department of Agriculture, Animal and Plant Health Inspection Service, Veterinary Services.

~~(lxxxi) "V Brand" means a 3" X 2" or larger hot iron, freeze, or bleach single V character brand, placed on the left hip near the tail head of a male Bovine being fed in a V Lot.~~

~~(lxxxii) "V Lot" means a feedlot that is established by a contractual agreement (V Lot agreement) with the Board and feedlot operator that allows for the feeding of untested Trichomoniasis Test Eligible Bovine, Trichomoniasis Infected Bovine or Trichomoniasis exposed Bovine in a feedlot based upon the operator-s compliance with the provisions of the agreement. All Trichomoniasis infected and exposed Bovine shall be branded with a V Brand. All male Bovine shall be isolated from all female Bovine at all times while in the V Lot and shall be shipped in Direct Movement to Immediate Slaughter~~

Effective 3/31/07
when leaving the V Lot.

~~(lxxxiii) "Virulent" means capable of causing a disease.~~

(lxii) (lxxxiv) "VS Form 1-27" means an official restricted movement document form created and supplied by the USDA/APHIS/VS and issued by a state or federal representative or by an Accredited Veterinarian.

(lxiii) (lxxxv) "Wildlife" means all living vertebrates that are not domesticated. (lxxxvi) "Wyoming Game and Fish Commission" means state agency 040 whose address is 5400 Bishop Boulevard, Cheyenne, WY 82006, (307) 777-4600 wild mammals, birds, fish, amphibians, reptiles, crustaceans, and mollusks.

(lxiv) "Wyoming Game and Fish Commission" means state agency 040, whose address is 5400 Bishop Boulevard, Cheyenne, WY 82006, (307) 777-4600.

~~(lxxxvii) "Wyoming Licensed Veterinarian" means an individual who is licensed by the State of Wyoming to practice veterinary medicine in Wyoming.~~

(lxv) (lxxxviii) "Wyoming State Veterinarian" means a graduate of a recognized veterinary college and licensed to practice in Wyoming, who shall be the chief executive officer of the Board an Accredited and licensed Veterinarian employed by the Board who serves as the State Veterinarian for the State of Wyoming.

~~(lxxxix) "Yak" means a long haired ruminant mammal of the genus *Bos*.~~

Section 4. **Penalty for a violation of rules.**

(a) Penalties for a violation of these rules shall be pursuant to law.

Section 5. **Adoption of Federal Regulations.**

(a) The United States Code of Federal Regulations 9 CFR, Chapter I (Animal and Plant Health Inspections Service, Department of Agriculture), Sub-chapter B (Cooperative Control and Eradication of Livestock for Poultry Diseases) (including all its parts and subparts); Sub-chapter C (Interstate Transportation of Animals (Including Poultry) and Animal Products) (including all its parts and subparts); Sub-chapter D (Exportation and Importation of Animals (Including Poultry) and Animal Products) (including all its parts and subparts); Sub-chapter E (Viruses, Serums, Toxins, and Analogous Products; Organisms and Vectors) (including all its parts and subparts); Sub-chapter G (Poultry Improvement) (including all its parts and subparts) as issued and amended as of January 1, 2006, shall be adopted by the Board insofar as these federal regulations are not inconsistent with the rules, regulations, and laws of the State of Wyoming. These rules do not include any later amendments of the Code of Federal Regulations past January 1, 2006¹¹. Copies of the Code of Federal Regulations are available to the public at the offices of the Board.

~~(b) The United States Department of Agriculture, Animal and Plant Health Inspection Services Brucellosis Eradication Uniform Methods and Rules (UMR) as issued and amended as of October 2003, shall be adopted by the Wyoming Livestock Board~~

Effective 3/31/07

~~insofar as those procedures are not inconsistent with the rules, regulations and laws of the State of Wyoming. These rules do not include any later amendments of the UMR past October 2003. Copies of the UMR are available to the public at the office of the Board.~~

~~(c) The United States Department of Agriculture, Animal and Plant Health Inspection Service's Scrapie Eradication Uniform Methods and Rules as issued and amended as of June 1, 2005, shall be adopted by the Wyoming Livestock Board insofar as those procedures are not inconsistent with the rules, regulations and laws of the State of Wyoming. These rules do not include any later amendments of the UMR past June 1, 2005. Copies of the UMR are available to the public at the office of the Board.~~

~~(d) The United States Department of Agriculture, Animal and Plant Health Inspection Service's Tuberculosis Eradication Uniform Methods and Rules as issued and amended as of January 1, 2005, shall be adopted by the Wyoming Livestock Board insofar as those procedures are not inconsistent with the rules, regulations and laws of the State of Wyoming. These rules do not include any later amendments of the UMR past January 1, 2005. Copies of the UMR are available to the public at the office of the Board.~~

Section 6. **General import requirements.**

~~(a) For purposes of import, an Animal will be considered a resident of a state only after residing in that state for thirty (30) consecutive days. If the Animal originates from a foreign nation, it will be considered to be a resident of the United States only after residing in the United States for three hundred sixty five (365) consecutive days. All Animals imported into Wyoming shall be accompanied by a Certificate of Veterinary Health Inspection, and an Import Permit or Shipping Number when required, issued in compliance with these Rules and all applicable state and federal Animal health regulations, except:~~

~~(i) Animals consigned for Direct Movement from a Farm or Ranch of Origin within the United States to an Approved Livestock Market, or to a Recognized Slaughter Establishment for Immediate Slaughter.~~

~~(ii) Animals imported directly to a Wyoming licensed veterinarian for treatment, diagnosis, or testing, and then returning directly to the farm or ranch of origin. Return to farm or ranch of origin requires a Wyoming brand inspection and compliance with the destination state's import requirements. Wyoming veterinarians receiving such animals shall notify the Board and/or maintain records of all such activities as required by the Wyoming State Veterinarian.~~

~~(b) Any person importing, causing to be imported or directing to be imported any Animal into Wyoming for any purpose, except those specifically exempted by these Rules, shall have the Animal visually inspected by an Accredited Veterinarian and the shipment shall be accompanied by a Certificate of Veterinary Health Inspection issued within thirty (30) days prior to entry. All commercial Animal carriers importing Animals are required to stop at the first Port of Entry encountered in Wyoming.~~

~~(c) Any person importing, causing to be imported, or directing to be imported any Animal into Wyoming shall comply with these Rules and all applicable federal a Animal~~

~~Effective 3/31/07~~
health regulations.

~~(d) Interstate Animal shipments, under specified restriction by the USDA/APHIS/VS may be transported through Wyoming if accompanied by a Form VS 1-27 with prior written approval from the Wyoming State Veterinarian.~~

~~(e) No import Animal shipment allowed by these Rules shall be diverted from the Wyoming destination stated on the Certificate of Veterinary Health Inspection and/or Import Permit.~~

~~(i) The following exception to this requirement exists:~~

~~(A) Diversions that have been approved by the Wyoming State Veterinarian in writing.~~

~~(f) All international imports shall be in compliance with all applicable federal animal health laws and state laws.~~

Section 7. Certificates of Veterinary Health Inspections.

~~(a) The Certificate of Veterinary Health Inspection, or copies of the original Certificate of Veterinary Health Inspection, shall be in the possession of the operator of each and every vehicle transporting Animals.~~ Certificates of Veterinary Health Inspection shall only be valid if properly issued by an Accredited Veterinarian or USDA/APHIS/VS veterinarian.

~~(b) Wyoming requires that a copy of the Certificate of Veterinary Health Inspection be forwarded to the Board by the animal health official of the state of origin or the Accredited Veterinarian that issued the Certificate of Veterinary Health Inspection within ten (10) days of issuance.~~ Certificates of Veterinary Health Inspection shall only be issued after a visual examination of all Animals intended for importation.

(c) Certificates of Veterinary Health Inspection are valid for thirty (30) days following proper issuance, unless otherwise specified by these Rules or at the discretion of the Wyoming State Veterinarian.

(d) Certificates of Veterinary Health Inspection shall be forwarded to the Board by the Animal health official of the state of origin or the issuing Accredited Veterinarian within ten (10) days of issuance.

~~(e)~~ (e) The Each Certificate of Veterinary Health Inspection shall contain the following information:

- (i) Import Permit number and/or Shipping Number when required;
- (ii) Name, and complete mailing, and physical address of the consignor;
- (iii) Name, and complete mailing, and physical address of the consignee;

Effective 3/31/07

(iv) Name and complete mailing address of the issuing Accredited Veterinarian;

(v) ~~(iv)~~ Origin of the Animal(s);

(vi) Number of Animals covered by the Certificate of Veterinary Health Inspection;

(vii) Species of Animal(s);

(viii) Age of Animal(s);

(ix) Gender of Animal(s);

(x) ~~(vi)~~ Purpose for which the Animals are being moved;

(xi) ~~(vii)~~ Verification that the Animal(s) being moved are is in good health and free of disease, including any required statements;

(xii) ~~(viii)~~ Dates of required testing and the specific test and the specific test result, if applicable;

(ix) Dates of required vaccination, if applicable; ~~and~~

(xiv) ~~(x)~~ Physical Wyoming destination of the Animal(s);

(A) The following exception to this requirement exists:

(I) ~~Animals being used by participants in consecutive Recreational Events shall list Wyoming as a destination in what is commonly know as a circuit.~~

(xi) ~~Accurate description including sex and breed of the Animals and showing the Official Individual Identification, individual Animal registered breed association tattoo, ownership brand or similar individual identification of each Animal;~~

(xii) ~~Ownership brands may only be used as identification on Certificates of Veterinary Health Inspection for Animals moved interstate when no official test is required for import. The ownership brands shall be registered with the official brand recording agency in the state of origin and the Animals shall be accompanied by the state of origin's official Brand Inspection Form. These animals are still required to have Official Individual Identification though it need not be recorded on the Certificate of Veterinary Health Inspection, and~~

(xv) Official Individual Identification, breed association registry tattoo, ownership brand, or other approved individual identification of each Animal, when applicable; or the statement "All animals in this shipment are officially individually identified where individual ID is required".

(a) State of origin tags and country of origin tags (for foreign imports) must be in all animals required to be identified unless an exception is provided in these rules, and these tags shall not be removed following importation.

(xvi) Brand certificate numbers, when applicable; and

(xvii) (xiii) United States Department of Agriculture license numbers for Animals used in circuses, carnivals and petting zoos.

~~(d) Only a Certificate of Veterinary Health Inspection issued by Accredited Veterinarians who are approved by the livestock health official of the state of origin, and veterinarians in the employ of the USDA/APHIS/VS shall be accepted.~~

Section 8. **Duties of Animal owners, owner's agents, and commercial Animal carriers.**

~~(a) The owners and operators of any Animal conveyances importing Animals into Wyoming~~ Any person, including but not limited to Animal owners, owner's agents, consignors, consignees, and transporters, shall:

~~(i) Not import any Animal into the state~~ Wyoming ~~except in compliance with these Rules and all other applicable federal a Animal health law, state law, and the provisions set forth in these Rules~~ and transportation regulations;

~~(ii) Not import any Animal into the state~~ Wyoming ~~unless the Animal has been imported in compliance with these Rules and all applicable federal animal health regulations.~~ each vehicle transporting Animals has immediate possession of all required documents related to the Animals being transported; and

~~(iii) Not import any Animal into the state unless all such conveyances used in the transportation of Animals are maintained in a clean, sanitary condition in compliance with USDA/APHIS/VS rules and guidelines;~~

~~(iv) Not import any Animal into the state unless all conveyances that have been used for movement of any Animal infected with or exposed to any infectious, contagious, or communicable diseases are thoroughly cleaned and disinfected as approved by the Wyoming State Veterinarian before further use in the transportation of Animals;~~

~~(v) Not import any Animal into the state unless each consignment is prepared for shipment according to the requirements of these Rules and all other applicable state and federal animal health regulations;~~

~~(vi) Not import any Animal into the state unless they have in their immediate possession all necessary documents related to the shipment of Animals being transported;~~

~~(iii) (vii) Not divert any Animal brought~~ imported ~~into Wyoming for production purposes or to become a permanent resident from the Wyoming destination stated on the Certificate of Veterinary Health Inspection~~ without the prior written

Effective 3/31/07

permission of the Wyoming State Veterinarian, and

~~(viii) Stop at the first Port of Entry encountered in Wyoming.~~

(iv) Not import any Animal into Wyoming unless all such conveyances used in the transportation of Animals are maintained in a clean and sanitary condition, including disinfection as may be required, and in compliance with state and federal Animal health and transportation regulations; and

(b) In addition, the owners and operators of commercial Animal carriers importing Animals into Wyoming shall:

(iii) Stop at the first Port of Entry encountered in Wyoming.

~~Section 9. Duties of Animal owners or owner's agents.~~

~~(a) Any person, including but not limited to Animal owners or owners' agent, importing, causing to be imported or directing to be imported any Animal into Wyoming shall:~~

~~(i) Not import, cause to be imported, or direct the importation of any Animal into the state except in compliance with applicable federal law, state law, and the provisions set forth in these Rules.~~

~~(ii) Not import, cause to be imported, or direct the importation of any Animal into the state unless each consignment is prepared for shipment according to the requirements of these Rules and all other applicable state regulations and federal animal health regulations;~~

~~(iii) Not import, cause to be imported, or direct the importation of any Animal into the state unless the Animal carriers have in their immediate possession all necessary documents related to the shipment of Animals being transported; and~~

~~(iv) Ensure that no Animal under their control, ownership or supervision that is brought into Wyoming is diverted from the Wyoming destination stated on the Certificate of Veterinary Health Inspection.~~

~~(vi) Not import, cause to be imported, or direct the importation of any Animal into the state unless the Animal has been visually inspected by an Accredited Veterinarian and the shipment is accompanied by a Certificate of Veterinary Health Inspection issued within thirty (30) days prior to entry.~~

Section 9. Interstate shipments with a VS-127.

(a) Interstate Animal shipments, under specified restriction by the USDA/APHIS/VS may be transported into or through Wyoming if accompanied by a Form VS- 127 with prior written approval from the Wyoming State Veterinarian.

Section 10. Interstate Livestock Health Movement ~~Agreement~~ Permits.

(a) Interstate Livestock Health Movement ~~Agreements~~ Permits (Permits) may be issued for one (1) year upon making application to the Board and ~~applied for to the Board and issued~~ when approved by the Wyoming State Veterinarian for one (1) year.

(b) The producer applying for an ~~Agreement~~ Permit shall own or control property in Wyoming and an adjacent state to Wyoming.

(c) Any Animal moving on an ~~Agreement~~ Permit shall be branded or identified with Official Individual Identification.

(d) Animals that move on an ~~Agreement~~ Permit shall originate from an established breeding herd (~~excluding steers and spayed heifers~~) and shall not have been assembled from three (3) or more herds within the past six (6) months.

(e) Animals that move on an ~~Agreement~~ Permit may not ~~Commingle~~ commingle with any other producer's Animals.

(f) All mature female Bison and/or ~~Bovine~~ Cattle moving under an ~~Agreement~~ Permit shall be Official Calfhood Vaccinates for Brucellosis or Official Adult Vaccinates for Brucellosis.

(g) Animals from an adjoining state, moving under an ~~Agreement~~ Permit, shall enter Wyoming with a valid Certificate of Veterinary Health Inspection and a copy of the ~~Agreement~~ Permit.

(h) Wyoming origin Animals returning to Wyoming under an ~~Agreement~~ Permit may enter Wyoming without a Certificate of Veterinary Health Inspection if no ~~Commingling~~ commingling has occurred out of state. The original Certificate of Veterinary Health Inspection must accompany the return shipment.

(i) Animals moving on an ~~Agreement~~ Permit shall meet the adjacent state's import and export requirements.

(j) The Wyoming State Veterinarian may revoke ~~a~~ an ~~Agreements~~ Permit at any time if for disease concerns arise or if ~~owners do not comply~~ non-compliance with the terms of the ~~Agreement~~ Permit.

(k) These ~~Agreements~~ Permits do not waive any brand inspection requirements.

Section 11. Interstate Equine Health Movement Permit

(a) Interstate Equine Health Movement Permits (Permits) may issued for one (1) year upon making application to the Board and when approved by the Wyoming State Veterinarian for one (1) year.

(b) Within thirty (30) days prior to the application for a Permit it is required that

Effective 3/31/07

each Equine have a Certificate of Veterinary Health Inspection and a negative test for Equine Infectious Anemia.

(c) Wyoming origin Equine returning to Wyoming under a Permit may return to Wyoming with no additional requirements if no commingling with diseased Equine occurred out of state.

(d) Equine moving on a Permit shall meet the adjacent state's import and export requirements.

(e) The Wyoming State Veterinarian may revoke a Permit at any time if disease concerns arise or if owners do not comply with the terms of the Permit.

(f) These Permits do not waive any brand inspection requirements.

Section 12. **Adjacent State Border Property Movement Permits.**

(a) In areas where the state line divides a contiguous property, Animals may move into Wyoming without a Certificate of Veterinary Health Inspection from the adjacent states provided that the owner has made application to the Board and has been issued an Adjacent State Border Property Movement Permit.

Section 13. **Animals that may not be imported into Wyoming.**

(a) No Animal may be imported into Wyoming that is affected with, or ~~that~~ has recently been exposed to, any infectious, contagious, or communicable disease or that originates from an area under Quarantine, ~~or an area suspected of harboring disease, or foreign nation where any Reportable Disease is currently endemic.~~

(b) No Feral Animal may be imported into Wyoming, except:-

(i) Feral Horses within the APHIS/BLM Wild Horse and Burro Partnership may be imported in compliance with these Rules and other requirements at the discretion of the Wyoming State Veterinarian.

(c) Wildlife may only be imported into Wyoming with prior authorization from the Wyoming Game and Fish Commission.

Section 14. **Quarantine, movement and release of imported Animals.**

(a) Animals entering Wyoming in violation of these Rules shall be held in Quarantine at the owner's or owner's agent's liability and expense and shall be subject to all inspection, test, treatment, and vaccination requirements at owners expense within ten (10) days of importation or at the Wyoming State Veterinarian's discretion.

(b) Movement of Quarantined Animals shall only be allowed pursuant to a VS Form 1-27, approved by the Wyoming State Veterinarian prior to movement.

(c) A release of Quarantined Animals is contingent upon satisfactory completion of

Effective 3/31/07

all conditions set forth in the Quarantine and written approval of the Wyoming State Veterinarian.

~~Section 15. **Movement of Quarantined Animals.**~~

~~(a) Movement of Quarantined Animals shall only be allowed pursuant to a VS Form 1-27 approved by the Wyoming State Veterinarian prior to the movement of any Quarantined Animal.~~

~~Section 16. **Release of Quarantined Animals.**~~

~~(a) A release of Quarantined Animals is contingent upon satisfactory completion of all conditions set forth in the Quarantine and with written approval of the Wyoming State Veterinarian.~~

Section ~~17~~ 15. **Requirements for the importation of Aviary and Cage Birds.**

(a) A Certificate of Veterinary Health Inspection is required on all Aviary and Cage Birds entering Wyoming.

Section ~~18~~ 16. **Requirements for the importation and use of Biologic Agents.**

(a) Prior written approval from the Wyoming State Veterinarian shall be obtained prior to the The importation of any ~~Virulent~~ virulent Biologic Agent ~~shall be approved in writing by the Wyoming State Veterinarian.~~

(b) Only USDA/APHIS/VS licensed or approved veterinary Biologic Agents or products maybe imported into Wyoming. except:

(i) ~~The following exception to this requirement exists:~~ Biologic Agents not licensed or federally approved may be imported with prior written approval from the Wyoming State Veterinarian.

~~(A) Biologic Agents of the type for which USDA/APHIS/VS has no approval process may be imported into Wyoming if other import requirements as specified in this section are met.~~

(c) The ~~sale and use~~ and possession of any Biologic Agents for Brucellosis is limited to Accredited Veterinarians and those under their supervision.

(d) The ~~sale and use~~ and possession of any Biologic Agent for Pseudorabies is limited to Accredited Veterinarians and those under their supervision with prior written approval of the Wyoming State Veterinarian.

(e) The ~~sale and use~~ and possession of any live Biologic Agent for Rabies is limited to ~~Licensed Veterinarians~~ licensed veterinarians and others with prior written approval from the Wyoming State Veterinarian.

(f) No Biologic Agent that ~~is infected with or that has recently been exposed to any~~

~~Effective 3/31/07~~

~~infectious, contagious or communicable disease or that~~ originates from a Quarantine area or an area suspected of harboring disease may be imported except with prior written approval from the Wyoming State Veterinarian.

Section 19-~~17~~. **Requirements for the importation of Bison and Cattle.**

(a) ~~An~~ A Certificate of Veterinary Health Inspection and an Import Permit is required on all Bison and Cattle entering Wyoming, unless excepted in Section 6(a)(i)(ii).

~~(i) —~~ The following exceptions to this requirement exist:

~~(A) Bison consigned for Direct Movement from a Premise of origin within the United States to an Approved Livestock Market.~~

~~(B) Bison consigned for Direct Movement from a Premise of origin within the United States for Immediate Slaughter at a Recognized Slaughter Establishment.~~

~~(b) A Certificate of Veterinary Health Inspection is required on all Bison entering Wyoming.~~

~~(i) The following exceptions to this requirement exist:~~

~~(A) Bison consigned for Direct Movement from a Premise of origin within the United States to an Approved Livestock Market, or~~

~~(B) Bison consigned for Direct Movement from a Premise of origin for Immediate Slaughter at a Recognized Slaughter Establishment.~~

~~(c) Any female Bison that has been spayed prior to entry shall be identified with an Official Spay Tag in the right ear prior to import. Spayed Bison shall be spayed by a Licensed Veterinarian or a Certified Spay Technician.~~

(b) Identification requirements:

(i) All sexually intact Bison and Cattle twelve (12) months of age and older shall each have Official Individual Identification.

(ii) Bison and Cattle imported from Canada for breeding, recreational, or grazing purposes shall have a “CAN” hot iron or freeze brand on the right hip.

(iii) Bison and Cattle from Mexico shall have an “M” hot iron or freeze brand on the right hip.

(iv) All Bison and Cattle originating from any foreign country whether imported directly or indirectly, shall be individually identified with a country of origin official tag which may not be removed during the life of the animal.

Effective 3/31/07

(v) Any female Bison or Cattle spayed prior to entry shall be identified with a silver USDA tag or a spay tag recognized by the Animal health official in the state of origin.

~~(c) (d) Brucellosis~~ vaccination, test and identification requirements for the importation of Bison:

~~(i) All Brucellosis Test Eligible Bison imported shall be identified with Official Individual Identification prior to import.~~ All sexually intact female Bison and Cattle imported into the Brucellosis Designated Surveillance Area shall be Official Calfhood Vaccinates or Official Adult Vaccinates prior to importation, except heifer calves, less than four (4) months of age and accompanying their mother, may be imported. (Sexually intact females are required to be identified with Official Individual Identification prior to entering the Brucellosis Designated Surveillance Area, including heifer calves regardless of age.)

~~(A) The following exception to this requirement exists:~~

~~(I) Bison consigned for Direct Movement from a Premise of origin within the United States to an Approved Livestock Market to be vaccinated prior to movement from the Livestock Market if sold to remain in Wyoming. These Bison shall be vaccinated to become Official Adult Vaccinates for Brucellosis or Official Calfhood Vaccinates for Brucellosis.~~

~~(ii) The importation of sexually intact female Bison that are not Official Calfhood Vaccinates for Brucellosis or Official Adult Vaccinates for Brucellosis is prohibited.~~ Unvaccinated Bison and Cattle less than twelve (12) months of age imported for breeding purposes may be imported into Wyoming outside of the Brucellosis Designated Surveillance Area under Quarantine. They must become Official Calfhood Vaccinates or Spayed prior to reaching thirteen (13) months of age.

~~(A) The following exceptions to this prohibition exist:~~

~~(I) Wyoming origin heifers of Brucellosis Vaccination Eligible age may return to Wyoming if they are being imported pursuant to an Interstate Livestock Health Movement Agreement. Following their return these Bison are subject to the mandatory Brucellosis vaccination requirements as described in Chapter 2 Rules entitled Vaccination Against and Surveillance for Brucellosis; to an approved K Lot;~~

~~(II) Female Bison that are moving under Direct Movement~~

~~(III) Female Bison that are imported with certification and identification that they have been spayed prior to import;~~

~~(IV) Female Bison imported with prior approval by the Wyoming State Veterinarian to be spayed by a Wyoming Licensed Veterinarian within two (2) weeks of arrival. The Bison shall be placed under Quarantine until spayed and held separate and apart from all other Animals;~~

Effective 3/31/07

~~(V) Brucellosis Vaccination Eligible Bison imported with prior approval by the Wyoming State Veterinarian to be vaccinated by an Accredited Veterinarian within two (2) weeks of arrival. The Bison shall be placed under Quarantine until vaccinated and held separate and apart from all other Animals;~~

~~(VI) Female Bison younger than six (6) months of age, not yet weaned from their import eligible mothers and imported with prior approval by the Wyoming State Veterinarian shall be subject to the Brucellosis vaccination requirements in Chapter 2 Rules entitled Vaccination Against and Surveillance for Brucellosis;~~

~~(VII) Brucellosis Vaccination Eligible Bison imported under Direct Movement from a Premise of origin to an Approved Livestock Market where they shall be spayed or vaccinated;~~

~~(VIII) Female Bison not yet Vaccination Eligible age, not accompanying their mothers may be imported but shall be subject to the Brucellosis vaccination requirements of Chapter 2 Rules entitled Vaccination Against and Surveillance for Brucellosis, and~~

~~(IX) Female Bison authorized in writing by the Wyoming State Veterinarian and USDA/APHIS/AVIC to be imported into Wyoming under Quarantine to become an Official Adult Vaccinate for Brucellosis~~

(iii) ~~Brucellosis Test Eligible Bison from a state with less than a class free Brucellosis status shall test negative to a Brucellosis test within thirty (30) days prior to entry into Wyoming and may be held under Quarantine and subject to a negative Brucellosis retest within forty five (45) to one hundred twenty (120) days after the pre-entry test. Unvaccinated Bison and Cattle greater than twelve (12) months of age may be imported into Wyoming outside of the Designated Surveillance Area under Quarantine to become Official Adult Vaccinates within thirty (30) days of importation. Importation is contingent upon the importer signing an adult vaccination agreement with the Wyoming State Veterinarian.~~

(A) The following exception to this requirement exists:

~~(I) Female Bison originating from a Certified Brucellosis Free Herd that have not Commingled with any other producer's Bison or Bovine.~~

(iv) Unvaccinated Bison and Cattle may be imported under Direct Movement to an Approved Feedlot.

(v) At the discretion of the Wyoming State Veterinarian, Bison or Cattle from any country, state, region, area, or zone which is not Brucellosis Free, or where current Brucellosis quarantines for livestock are in effect, or where there is an infected wildlife reservoir present, shall test negative to a Brucellosis test within thirty (30) days prior to entry into Wyoming and may be held under Quarantine and subject to a Brucellosis retest forty-five (45) to one hundred twenty (120) days after the pre-entry test.

(d) No Bison or Cattle that is known to be seropositive for Johnes Disease may be

~~Effective 3/31/07~~
imported into Wyoming.

(e) Trichomoniasis requirements for Cattle, excluding yaks:

(i) Trichomoniasis Test Eligible Bulls being imported into Wyoming for breeding purposes shall test negative either three (3) times by culture or two (2) times by PCR within sixty (60) days prior to entry, by diagnostics performed at an approved state or federal veterinary laboratory.

(ii) Female Cattle over twenty-four (24) months of age intended for breeding purposes shall not be imported from a herd under Quarantine for Trichomoniasis.

(iii) Trichomoniasis Test Eligible Bulls being returned to Wyoming by a producer pursuant to an Interstate Livestock Health Movement Permit, Adjacent State Border Property Movement Permit or from land owned or controlled by the importer in another state do not need to be tested for Trichomoniasis provided the Cattle are returning to their Wyoming ranch of origin, the Cattle have not commingled with any other producer's Cattle.

(f)~~(e)~~ Tuberculosis requirements for the importation of Bison:

~~(i) Bison originating from a state or zone that is not accredited Tuberculosis-free shall test negative for Tuberculosis within sixty (60) days if the Bison:~~ The following shall have no Tuberculosis test requirements, unless otherwise directed by the Wyoming State Veterinarian:

~~(A) Originate from a modified accredited advanced state or zone as defined in the Tuberculosis UMR and are eighteen (18) months of age or older (as evidenced by the loss of the central deciduous incisors):~~ Bison and Cattle from any state or zone which is Accredited-free or Modified Accredited Advance; or

~~(I) The following exceptions to this requirement exist:~~

~~(1.) Bison originating from an accredited free herd as defined in the Tuberculosis UMR may have this testing requirement waived at the discretion of the Wyoming State Veterinarian.~~

~~(2.) Bison imported for feeding may have this testing requirement waived at the discretion of the Wyoming State Veterinarian.~~

~~(B) Originate from a modified accredited state or zone as defined in the Tuberculosis UMR and are twelve (12) months of age or older:~~ Bison and Cattle imported under Direct Movement to an Approved Feedlot; or

~~(I) The following exception to this requirement exists:~~

~~(1.) Bison originating from an accredited free herd as defined in the Tuberculosis UMR may have this testing requirement waived at the discretion of the Wyoming State Veterinarian.~~

Effective 3/31/07

~~(C) Originate from an accredited preparatory state or zone as defined in the Tuberculosis UMR. Bison or Cattle from an Accredited-free herd.~~

~~(ii) Bison originating from a foreign nation shall be tested negative for Tuberculosis prior to entry and shall be held under Quarantine pending the results of a post entry Tuberculosis test sixty (60) to ninety (90) days following the negative pre entry Tuberculosis test. The following shall have a negative Tuberculosis test performed within sixty (60) days prior to importation:~~

~~(A) Bison and Cattle from any state or zone which is not Accredited-free or Modified Accredited Advanced; or~~

~~(B) Bison and Cattle from any foreign nation recognized by USDA/APHIS/VS as Accredited-free; or~~

~~(C) Sexually intact Dairy Cattle, except those less than two (2) months of age, which may be imported under Quarantine with Official Individual Identification to be tested upon reaching two (2) months of age.~~

~~(iii) Bison or Cattle, including rodeo cattle, originating from a foreign nation or an area within a foreign nation that is not recognized by USDA/APHIS/VS as Accredited-free shall have a negative Tuberculosis test performed within sixty (60) days prior to importation and then may be imported under Quarantine and subjected to a second test performed sixty (60) to ninety (90) days after the pre-import test. If the post-entry test was performed elsewhere in the United States, and the date, location, and testing veterinarian's name is provided on the Certificate of Veterinary Health Inspection and a copy of the Tuberculosis test chart is provided for review by the State Veterinarian, then no further testing may be required at the discretion of the Wyoming State Veterinarian. These Animals are required to have a country of origin official tag which must not be removed for the life of the Animal.~~

~~(iv) All Rodeo Cattle shall have a negative Tuberculosis test within twelve (12) months prior to importation, in addition to other applicable Tuberculosis testing requirements, except Rodeo Cattle less than two months of age with Official Individual Identification may have testing requirements waived or modified with the prior written approval of the Wyoming State Veterinarian.~~

~~(v) The importation of and test requirements for Bison or Cattle originating from any area with an existing or suspected wildlife reservoir of Tuberculosis or from any area with endemic infection in livestock, regardless of country, state, or zone classification, shall be at the discretion of the Wyoming State Veterinarian.~~

~~Section 20. **Requirements for the importation of Bovine.**~~

~~(a) An Import Permit is required on all Bovine entering Wyoming.~~

~~———(i) The following exceptions to this requirement exist:~~

Effective 3/31/07

~~(A) Bovine consigned for Direct Movement from a Premise of origin within the United States to an Approved Livestock Market.~~

~~(B) Bovine consigned for Direct Movement from a Premise of origin within the United States for Immediate Slaughter at a Recognized Slaughter Establishment.~~

~~(b) A Certificate of Veterinary Health Inspection is required on all Bovine entering Wyoming.~~

~~(i) The following exceptions to this requirement exist:~~

~~(A) Bovine consigned for Direct Movement from a Premise of origin within the United States to an Approved Livestock Market.~~

~~(B) Bovine consigned for Direct Movement from a Premise of origin within the United States for Immediate Slaughter at a Recognized Slaughter Establishment.~~

~~(c) Any female Bovine that has been spayed prior to entry shall be identified with an Official Spay Tag in the right ear prior to import. Spayed Bovine shall be spayed by a Licensed Veterinarian or a Certified Spay Technician.~~

~~(d) Brucellosis requirements for the importation of Bovine:~~

~~(i) All Brucellosis Test Eligible Bovine imported shall be identified with Official Individual Identification prior to import.~~

~~(A) The following exception to this requirement exists:~~

~~(I) Bovine consigned for Direct Movement from a Premise of origin within the United States to an Approved Livestock Market to be vaccinated prior to movement from the Livestock Market if sold to remain in Wyoming. These Bovine shall be vaccinated to become Official Adult Vaccinates for Brucellosis or Official Calfhood Vaccinates for Brucellosis prior to movement from the Livestock Market if sold to remain in Wyoming.~~

~~(ii) The importation of sexually intact female Bovine that are not Official Calfhood Vaccinates for Brucellosis or Official Adult Vaccinates for Brucellosis is prohibited.~~

~~(A) The following exceptions to this prohibition exist:~~

~~(I) Wyoming origin heifers of Brucellosis Vaccination Eligible age may return to Wyoming if they are being imported pursuant to an Interstate Livestock Health Movement Agreement. Following their return these Bovine are subject to the mandatory Brucellosis vaccination requirements as described in Chapter 2 Rules entitled Vaccination Against and Surveillance for Brucellosis;~~

~~(II) Female Bovine that are moving under Direct Movement to an approved K Lot;~~

Effective 3/31/07

~~(III) Female Bovine imported with certification and identification that they have been spayed prior to import;~~

~~(IV) Female Bovine imported with prior approval by the Wyoming State Veterinarian to be spayed by a Wyoming Licensed Veterinarian within two (2) weeks of arrival. The Bovine shall be placed under Quarantine until spayed and held separate and apart from all other Animals;~~

~~(V) Brucellosis Vaccination Eligible Bovine imported with prior approval by the Wyoming State Veterinarian to be vaccinated by an Accredited Veterinarian within two (2) weeks of arrival. The Bovine shall be placed under Quarantine until vaccinated and held separate and apart from all other Animals;~~

~~(VI) Female Bovine younger than six (6) months of age, not yet weaned from their import eligible mothers and imported with prior approval by the Wyoming State Veterinarian shall be subject to the Brucellosis vaccination requirements in Chapter 2 Rules entitled Vaccination Against and Surveillance for Brucellosis;~~

~~(VII) Brucellosis Vaccination Eligible Bovine imported under Direct Movement from a Premise of origin to an Approved Livestock Market where they shall be spayed or vaccinated;~~

~~(VIII) Female Bovine not yet Vaccination Eligible age, not accompanying their mothers may be imported with prior approval from the Wyoming State Veterinarian and shall be subject to the Brucellosis vaccination requirements of Chapter 2 Rules entitled Vaccination Against and Surveillance for Brucellosis, and~~

~~(IX) Female Bovine authorized in writing by the Wyoming State Veterinarian and USDA/APHIS/AVIC to be imported into Wyoming under Quarantine to become an Official Adult Vaccinate for Brucellosis.~~

~~(iii) Brucellosis Test Eligible Bovine from a state with less than a class free Brucellosis status shall test negative to a Brucellosis test within thirty (30) days prior to entry and may be held under Quarantine and subject to a negative Brucellosis retest within forty five (45) to one hundred twenty (120) days after the pre entry test.~~

~~(A) The following exception to this requirement exists:~~

~~(I) Female Bovine originating from a Certified Brucellosis-Free Herd that have not Commingled with any other producer's Bison or Bovine.~~

~~(e) No Bovine that is known to be seropositive for Johnes Disease may be imported into Wyoming.~~

~~(f) Trichomoniasis requirements for the importation of Bovine:~~

~~(i) Trichomoniasis Test Eligible Bovine being imported into Wyoming for sale for breeding purposes shall be Certified Trichomoniasis Negative prior to entry by~~

Effective 3/31/07

diagnostics performed at an approved state or federal veterinary laboratory or by a veterinarian certified in Trichomoniasis diagnostics by the state of origin.

(A) The following exceptions to this requirement exist but shall comply with Section 7(b) of Chapter 15 Rules entitled Trichomoniasis Rules:

(I) ~~Virgin male Bovine under thirty (30) months. A written statement attesting to the virginity of the Bovine shall be included on the Certificate of Veterinary Health Inspection; and~~

(II) ~~Trichomoniasis Test Eligible Bovine being imported under Quarantine to be tested upon arrival.~~

(ii) ~~Trichomoniasis Test Eligible Bovine being imported by a producer to use for breeding purposes in the producer's own herd only need to be tested negative to Trichomoniasis once.~~

~~(A) The following exception to this requirement exists:~~

(I) ~~Wyoming origin Trichomoniasis Test Eligible Bovine returning to Wyoming after being in another state for purposes other than natural breeding.~~

(iii) ~~The Certificate of Veterinary Health Inspection accompanying Trichomoniasis Test Eligible Bovine destined to be used for reproductive purposes in Wyoming shall include the following:~~

(A) ~~Individual identification listing of each Bovine on the Certificate of Veterinary Health Inspection. Imported Trichomoniasis Test Eligible Bovine, which do not have individual Trichomoniasis identification from another state's Trichomoniasis program at the time of import, shall be identified with Official Individual Identification upon arrival; and~~

(B) ~~Individual listing of dates for the Official Trichomoniasis Test results for each Bovine.~~

(iv) ~~The Certificate of Veterinary Health Inspection accompanying virgin male Bovine destined to be used for reproductive purposes in Wyoming shall include the following:~~

~~(A) The statement, "These Bovine have not been used for reproductive purposes," and~~

~~(B) Individual animal identification.~~

(v) ~~Trichomoniasis Test Eligible Bovine being imported by a producer pursuant to an Interstate Livestock Health Movement Agreement, Adjacent State Border Property Movement Permit or from land owned or controlled by the importer in another state do not need to be tested for Trichomoniasis provided the Bovine are returning to their Wyoming ranch of origin, the Bovine have not commingled with any other producer's~~

Effective 3/31/07

~~Bovine and the Bovine have not run in any common grazing.~~

~~(g) Tuberculosis requirements for the importation of Bovine:~~

~~(i) Bovine originating from a state or zone that is not accredited Tuberculosis free shall test negative for Tuberculosis within sixty (60) days if the Bovine:~~

~~(A) Originate from a modified accredited advanced state or zone as defined in the Tuberculosis UMR and are eighteen (18) months of age or older (as evidenced by the loss of the central deciduous incisors):~~

~~(I) The following exceptions to this requirement exist:~~

~~(1.) Bovine originating from an accredited free herd as defined in the Tuberculosis UMR may have this testing requirement waived at the discretion of the Wyoming State Veterinarian.~~

~~(2.) Bovine imported for feeding may have this testing requirement waived at the discretion of the Wyoming State Veterinarian.~~

~~(B) Originate from a modified accredited state or zone as defined in the Tuberculosis UMR and are twelve (12) months of age or older.~~

~~(I) The following exception to this requirement exists:~~

~~(1.) Bovine originating from an accredited free herd as defined in the Tuberculosis UMR may have this testing requirement waived at the discretion of the Wyoming State Veterinarian.~~

~~(C) Originate from an accredited preparatory state or zone as defined in the Tuberculosis UMR.~~

~~(ii) Bovine originating from a foreign nation shall be tested negative for Tuberculosis prior to entry and shall be held under Quarantine pending the results of a post-entry Tuberculosis test sixty (60) to ninety (90) days following the negative pre-entry Tuberculosis test.~~

~~(iii) All dairy Bovine that are imported into Wyoming shall have a negative Tuberculosis test within sixty (60) days prior to entry. A copy of the Tuberculosis test chart shall accompany the shipment.~~

~~(A) The following exceptions to this requirement exist:~~

~~(I) Dairy Bovine younger than six (6) months of age shall be allowed to be imported into Wyoming and shall be Quarantined to the destination Premises to be tested for Tuberculosis at six (6) months of age at the owner's expense.~~

Section 24 18. Requirements for the importation of ~~Camelidae~~ **Camel Family**
Species.

Effective 3/31/07

(a) A Certificate of Veterinary Health Inspection is required on all ~~Camelidae~~ Camel Family Species entering Wyoming.

(b) Identification requirements:

(i) A state of origin tag or a USDA brite tag is required on all imported Camel Family Species.

~~(b) Brucellosis requirements for the importation of Camelidae:~~

~~(i) All Camelidae from a state with less than a Brucellosis class free status shall be tested negative for Brucellosis within thirty (30) days prior to entry.~~

(c) (e) Tuberculosis requirements for the importation of Camelidae:

~~(i) Camelidae~~ Camel Family Species ~~originating from a state or zone that is not accredited Tuberculosis free shall have a negative Tuberculosis test~~ conducted in the axillary region ~~within sixty (60) days prior to entry~~ importation.

~~(ii) Camelidae~~ Camel Family species ~~originating from a foreign nation not recognized by USDA/APHIS/VS as accredited Tuberculosis free shall be tested negative for Tuberculosis~~ in the axillary region within sixty (60) days ~~prior to entry~~ importation and shall be held under Quarantine pending the results of a post ~~entry~~ importation Tuberculosis test conducted in the axillary region ~~sixty (60) to ninety (90) days following the negative pre entry~~ importation Tuberculosis test.
