

Trichomoniasis by the Numbers

For Breeding Year 2017-2018

09-17-18

September 1, 2017 through August 31, 2018

The first number in counties on the map indicates total number bulls tested in the county, second number indicates the number Positive out of that total, third number indicates number of Accessions (visits) in that county. Fourth number indicates number of herds with positive bulls.

Numbers from Previous years compared to this year	'17/'18	'16/'17	'15/'16	'14/'15	'13/'14	'12/'13
Total number bulls tested:	11,369	10,826	10,054	10,168	10,142	10,172
Number bulls tested negative:	11,369	10,823	10,041	10,156	10,128	10,121
Number bulls tested positive:	0	3	14	12	25	51
Number of test Accessions:	1160	1094	1,101	1,162		
Total Premises with Trich positive bulls:	0	2	4	6	13	17
Number of Contact Herds to a Trich Infected Herd	0	13	27			

Positive Bulls/Premises in 2017/18: No Positive Bulls.

Positive Bulls/Premises in 2015/16: Uinta (2/1), Washakie (12/3)

Positive Bulls/Premises in 2014/15: Big Horn (3/2), Sweetwater (3/2), Uinta (6/2),

Positive Bulls/Premises 2013/14: Big Horn (4/2), Carbon (2/1) Fremont (1/1) Platte (2/1) Sweetwater (6/5), Uinta (2/2), Washakie (9/1)

Positive Bulls/Premises in 2012/13: Big Horn (5/1), Hot Springs (1/1), Laramie (2/1) Sweetwater (14/5), Uinta (5/4), Washakie (24/5)

Positive Bulls/Premises in 2011/12: Fremont (1/1), Lincoln (12/4), Sweetwater (1/1), Uinta (4/2)
