Officer

HB0180 Brucellosis Non-negative Notification Protocol

WLSB Brucellosis Non-Negative Notification

- Herd veterinarian and owner/manager will be notified by a WLSB staff veterinarian or designated representative within 72 hours of a non-negative brucellosis result.
- WLSB brand inspectors will be notified by an employee of the WLSB Animal Health division prior to movement of quarantined livestock or when movement issues may arise.
- County stakeholders will be notified through standard communication methods by WLSB following acceptance of quarantine protocol by the herd owner/manager.
- Standard brucellosis quarantine protocol will be available on the WLSB website. Individual brucellosis affected herd plans are risk based and specific to the quarantined herd.
- Upon National Veterinary Services Laboratory (NVSL) confirmation of a brucellosis reactor, WLSB will notify veterinarians in the affected county.
